

LANDA[®]
PRESSURE WASHERS

Since 1969

North America's **LARGEST** Manufacturer
of Industrial **PRESSURE WASHERS**

Water Jet

Flat Surface Cleaning Attachment

The Water Jet is the premier surface cleaner on the market. It attaches easily to a hot- or cold-water pressure washer and "mows" grime on most flat surfaces, from concrete to asphalt. The stainless steel spray bar, with two precision spray nozzles, spins at an astounding 2000 RPM.

- Easily attaches to Hot- or Cold-Water Pressure Washer
- Up to 5 GPM, 4000 PSI
- Spins at 2000 RPM
- Fatigue-free Trigger Bar

Holster-mounted wand makes for easy spot cleaning of hard-to-reach places

■ Fatigue-free, safety **Handle and Trigger Bar** instantly stops the unit for operator protection.

■ Easy-turn **Swivel Hose Connection** keeps the hose from tangling while attached to the pressure washer for easy handling and maneuvering.

■ **Tri-Lingual Operating Instructions and Warnings** in English, Spanish and French for convenience of the operator and owner liability protection.

■ Self-lubricating **Rotary Union** is protected in a stainless steel housing and features industrial strength ball bearings and tungsten carbide seat for long life and low maintenance.

■ Easy-move **Height Adjustment Lever** allows you to raise or lower the spray bar so you can blast off concrete but not dig up asphalt.

■ **Rugged Polyethylene Housing** is durable enough to hold up under the toughest of conditions yet is light enough for easy maneuvering, plus narrow enough to fit through most doorways.

■ Easy-to-clean, high-pressure **Inline Filter** minimizes maintenance by preventing spray nozzles from plugging.

■ **Trigger gun** is holster-mounted to keep wand near by for cleaning hard-to-reach corners; water flow is automatically switched when trigger is pulled.

■ **Collapsible Handle** with the twist of a wing nut makes for easy transporting and storage.

■ **Rugged Steel Tubing** with durable epoxy coat finish for all-weather protection.

■ **Tubed Pneumatic Tires** absorb vibration and make handling an easy touch.

■ **Sealed Swivel Caster** allows the Water Jet to maneuver easily in and out of tight spaces.
